

Attention: All applicants for the medical check-up and other various health examinations

Precautions to prevent the spread of novel coronavirus infection

The following is a correspondence policy in medical examination facilities compiled based on notifications from the Ministry of Health, Labor and Welfare, the Japan Society of Ningen Dock, the Japan Society of Gastroenterological Endoscopy, the Japanese Respiratory Society, etc. on novel coronavirus.

We have decided to comply with the policy at our hospital's health management department. We appreciate your understanding and cooperation.

- ◆ Please be sure to bring a mask when you come to the hospital.
- ◆ To prevent the spread of infection while in the dock, basically we do not allow you to go out or overnight stays.

- ◆ Those who fall under any of the followings will not be taken.

Please inform us by phone in advance.

- Those who have cold symptoms such as sore throat, cough, and runny nose
- Those who have high fever or fever
- Persons who had high fever or fever within one week before coming to the dock / various medical examinations
- Those who feel tiredness or stuffy
- Those who feel loss of taste or smell
- Those who have gastrointestinal symptoms such as vomiting and diarrhea without any obvious cause
- Those who have a meeting or a dinner (two or more participants, other than family members) with food and drink, within two weeks before undergoing the dock and various medical examinations
- Those who have a history of contact within two weeks before undergoing the dock and various medical examinations with patients of the novel coronavirus and those who are suspected (including those who live together or have a fever in the workplace)
- Those who have traveled to other countries (and those who have contact with them at home or at work) specified by the Ministry of Justice and the Ministry of Health, Labor and Welfare, within two weeks before undergoing the dock and various medical examinations
- Those who have visited or stayed in areas (especially in metropolitan areas) where the number of newly infected people is increasing or who have traveled from their place of residence to areas outside the prefecture within 2 weeks of undergoing human docks and various medical examinations. (including those who have contact with them at home or at work)

- **[important]** Those who are planning to travel from their place of residence to outside the prefecture before taking the test due to various reasons, we are asking to change the schedule, so please be sure to contact us by phone in advance.

◆ **On medical examinations in this hospital**

- Respiratory (lung) function tests have been discontinued for the time being.
- Other general tests are carried out as usual.

◆ Notifications from each academic society, etc.

- Thorough measures to prevent the infection of the novel coronavirus

Information and notices regarding the novel coronavirus are constantly being updated and changed.

It is difficult to tell all of them, so please be aware that you may not be able to perform some tests on the day of your medical check-up, or you may not be taken.

If you have any questions, please contact the Health Care Section.
